

▶ AI MEDIA

AI marketing video, fully paid

Cinematic AI marketing video with voice-cloned narration and AI visuals, scripted and edited end to end for a paying UK client.

Independent client work · solo, end to end

MILESTONES PAID

4

VIDEOS DELIVERED

THE PROBLEM

A UK SaaS client needed high-impact product/marketing video without a film budget.

WHAT I DID

- Produced cinematic AI video with voice-cloned narration and AI visuals, scripted and edited end to end.
- Delivered 4 finished pieces across the contract (demo-1 through demo-4) for Cipher Knights Ltd, Leicester UK.
- Built a repeatable AI-video pipeline I can run again end to end.

THE RESULT

All milestones approved and paid. A repeatable AI-video pipeline I now offer as a service.

THE JUDGMENT CALL · WHAT THE AI COULDN'T DO

The first AI cuts looked impressive but drifted off-script and off-brand. The deliverable was in the edit, the retakes, and the calls on what to cut, not in the generation.
